

Ben Reynolds ~ Town of Genesee

Town of Genesee "Gentle Slopes and Hometown Folks"

The first settler was John Bell, Jr., arriving around 1817. The Town of Genesee was established on April 16, 1830 from a division of the Town of Cuba. Much of the early economy was based on farming, harvesting the forests, but oil production began around 1890.

In the Town a small creek, a tributary stream of the Allegheny River called Little Genesee, thus the name of the hamlet through which it flows.

Comments from Highway Superintendent, Ben Reynolds "Born in the Town of Genesee, lived here all my life, great place to raise a family."

"I have a great highway crew working for me - - that makes my job and life much easier."
